## **FATCA | Trump's comments**

Is Mr Trump right?

Source: [BBC](#)

In relation to FATCA, the answer is no. We can say that confidently, as the European Parliament has [rightly accused](#) the European Commission of "*putting relations with the US before the interests of EU citizens*", while criticising the EDPB for "*ignoring significant case law development from the CJEU and the absence of meaningful decisions and corrective measures*".

It is time for EU institutions to show the importance of the Rule of Law, stop playing politics, pay heed to the [complaints of EU Petitioners](#) and uphold individuals' fundamental rights under the EU Charter in the area of international data transfers, especially as individuals and businesses are starting to get [targeted](#). Now more than ever, the Rule of Law is what should tell the EU from other parts of the world.
